QUALITY POLICY

Quality Mission

To remain the leading supplier of high quality sensors, switches, and devices to military, aerospace, and commercial industries worldwide.

Quality Strategy

To strictly control quality throughout our Organization, ensuring the needs and expectations of interested parties are satisfied. To enhance product performance in high-precision applications by providing innovative solutions involving high accuracy inertia, acceleration, and velocity sensing technologies. To continuously review and improve our Quality Management System to increase customer value. To apply the principles of Lean Manufacturing to drive processes towards minimizing waste and maximizing efficiency.

Core Values

Customer

- Exemplary service and support
- Superior customer experience

Passion

- Love of our work
- Pride in our products and work environment

Quality

- Strive to exceed the standards of interested parties
